Projects

My Masjid

<https://play.google.com/store/apps/details?id=com.teo.mymasjid&hl=en>

My Masjid App provides Masjid selection functionality to track the Salah Times. App has an attractive widget where you can view Daily Salah times without opening of app. It will give you reminders of Adhan and Iqamah times.

Danish Softwares

<https://danishsoftwares.com/en>

Developed and contributed to the platform architecture for Danish Softwares (danishsoftwares.com ) , a comprehensive web portal designed to list, search, and manage software products and company profiles across Denmark. Built high-performance backend RESTful APIs using ASP.NET  Core to handle product metadata, company registrations, and dynamic search querying. Implemented a responsive Next.js frontend to ensure fast indexing, optimal SEO performance, and smooth user interaction across all devices.

Bullseye

<https://play.google.com/store/apps/details?id=com.bullseye.talentmanagement2&hl=en>

Talent development, engagement, succession planning and leadership business intelligence solutions in one simple, intuitive integrated portal.

We add value to our clients by enabling a culture of coaching and mentoring that stimulates employee engagement

Certificates

Azure Cloud Fundamentals (AZ-900) Certified

I have successfully earned the Microsoft Azure Fundamentals (AZ-900) certification, demonstrating a solid foundation in cloud computing. This certification has equipped me with key knowledge of Azure services, including cloud concepts, core Azure services, security, privacy, compliance, and pricing models.

Next.js for Beginners to Advanced

Certified in Next.js for Beginners to Advanced by Mindluster, demonstrating core competence in server-side rendering, static site generation, and modern React frameworks. Skilled in building performant, full-stack web applications with optimized routing and seamless user experiences.
